ALPHABETICAL LIST OF CHURCHES

The General Assembly of 1930 directed that the Alphabetical List of Churches be printed in the Minutes (see page 80 of 1930 Minutes).

Explanatory Note

Churches are alphabetized both by name and by post office.

Where the name of the church appears first the presbytery is then given, followed by the name of the town or city. Mailing and street addresses for churches are shown under names of towns or cities.

When two addresses are given, the first indicates mailing address, the second indicates location address. If there is no mailing address other than city, state and zip code, dashes(--,) indicate that no mailing address is given. The year churches were organized is found at the end of the address line.

The presbytery is used instead of a page number for reference to Statistical Reports. For the convenience of those who are not familiar with the presbyteries, an alphabetical index, with page number for each presbytery is given on page *iv*-Part II.

This list is as accurate as it could be made by comparing the reports of the presbyteries with the reports from the individual churches.

Churches dissolved or dismissed to other denominations in the current year are not listed below. See tables headed Churches Dissolved or Churches Dismissed to Other Denominations.
